Quality... Stewardship... Sustainability... Innovation... Employee Connectivity.

# Agristats and Related Plant and Sales Analyses

Q1 – 2015

1/3-3/28

*Triumph Foods*

Quality... Stewardship... Sustainability... Innovation... Employee Connectivity.

### Introductory note:

This presentation is intended as an analysis of opportunities. For that purpose, we have chosen to exclude above average performances relative to; cost, yield, sales price variances, sales mix variances, etc. for all categories in the study.

All materials and narratives presented are generally consistent with the quarterly feedback from Agristats. However, we are looking to highlight a range of opportunities from what we interpret to be the most concrete and objective Agristats data available. We will strip out incomparable or misleading information and evaluate the opportunities that represent the most significant economic variance to the average in the peer group.

\*All financial data is presented on a quarterly basis and relative to the average in the peer group.

Quality... Stewardship... Sustainability... Innovation... Employee Connectivity.

# Net Price Impact

[REDACTED]

[REDACTED] This makes sense as we are in a commodity market.

[REDACTED]

Quality... Stewardship... Sustainability... Innovation... Employee Connectivity.

# Net Mix Impact

**Takeaway** – It's critical to peel back all of the components of the Agristats reports to derive meaningful analysis. At a summary level things appear positive, but stripped down unveils much greater opportunities.

While we are in a commodity market, 

*Triumph Foods*

Quality... Stewardship... Sustainability... Innovation... Employee Connectivity.
